DURHAM CITY GREEN BELT

Durham City is the County's priceless treasure. We are proud of the World Heritage Site of Durham Cathedral and Castle and the City surrounding it. Tourists come from all over the world to see our City. The surrounding countryside is protected by the Green Belt. The purpose of the Green Belt is to restrict building on green field sites, unless 'exceptional circumstances' are indicated.

The County Council intends to remove the Green Belt protection (formally designated in 2004) on a number of sites, in order to permit the building of houses and other development. We support a vision for the future of County Durham, which will improve the economy of the **whole** County by making use of all its assets.
We invite you to support the protection of Durham City's Green Belt so that the character of the City, and setting of the World Heritage Site, can be enjoyed by future generations.
